eyewear and contact lenses*

Why Choose Mayo Clinic Optical?

Our staff approaches eye care as a team. Your eyeglasses and contact lenses are an important part of your overall eye care.

Our Opticians are certified by the American Board of Opticianry. We offer many frames and lenses to choose from in each location along with price ranges to fit any budget.

We are committed to helping you select the best products for you. We provide one on one personalized service that is focused on your needs. We will continue to help you with your eyeglasses or contacts for the life of the product.

Your eyeglasses will be made by our optical laboratory here at Mayo Clinic. Mayo Clinic Optical Lab is committed to safety, quality and providing only the best optical lenses using sophisticated computerized technology.

Our Services

Mayo Clinic Optical offers a wide range of services from eyeglasses to specialty products. We find new ways to advance your quality of vision and work to add new products to our shops. Several of the services we offer include:

- One year warranty on all eyeglasses at no additional charge
- Free cleaning and adjustments, regardless of where you purchased your eyeglasses
- Multiple pair discounts
- Dry eye and low vision products
- Wide variety of frames and lens designs
- Wide range of contact lenses
- Gift certificates
- Prescriptions accepted from any eye care provider, including providers outside of Mayo Clinic.

Let Us Focus On You

Our primary value is that the needs of the patient come first. We understand that sometimes choosing the correct eye care product can be overwhelming. To take care of you, we'll discuss all of your options including frames, lenses and additional features. During this discussion we focus on your expectations and the benefits of the products available to you. If you ever have a question about eyeglasses or contact lenses, don't hesitate to call us. We will be happy to answer your questions regardless of where you received your exam or purchased your last pair of eyeglasses or contact lenses.
